---

I have 17 years experience editing documentaries, factual entertainment, promos, web and corporate films for clients including BBC, ITV, CH4, Discovery and CNN.

I love to find the story in the rushes and tell that story in an engaging, stylish and thought-provoking way that really connects with an audience and keeps them watching. I'm hard-working with a real enthusiasm for every job I undertake - I want to make each film the best it can be. I'm easy to work with and calm in the face of tight deadlines, happy working either solo or alongside a director/producer.

I'm highly experienced on Avid, Premiere Pro and FCP. I also have my own editing kit and can work remotely from home.

---
