## about me

I've been editing factual television for over a decade, cutting a diverse range of programmes for all major UK broadcasters. Whether editing a stunning natural history series or a fascinating observational documentary, I demonstrate an excellent sense of structure and creativity, while working quickly and efficiently, keeping the edit on schedule. I'm happy to work alone or accompanied using Avid, Final Cut Pro or Adobe Premiere.

## natural history & science

| <b>production</b>                  | <b>company</b>       | <b>producer</b> | <b>channel</b> | <b>duration</b> | <b>kit</b> |
