I have over a decade of experience in broadcast television and a strong background in factual programme making. I enjoy working on observational documentaries and both daytime and prime-time entertainment series, including cookery, horticultural, travel, news and archive based films. As a creative storyteller, I have a good ear for selecting exciting and emotive music, and can work well under pressure to finish fast turnaround projects to a high standard. With a highly technical background I am efficient and organised on Avid Media Composer, Final Cut Pro 7 and Adobe Premiere Pro.
